ISSUE No. 26

"1,900,000 JOBLESS".

"1,900,000 IMMIGRANTS"

WHAT A COINCIDENCE! The Government announced in July that there are now a total of 1,900,000 people without a job. By the time this issue appears the figure will probably have exceeded 2,000,000. The Government also claims that there are "1,900,000" Immigrants in Britain.

As we all know, the Government has always massively underestimated the number of Immigrants and there is good reason for suspecting that it also underestimates the total number of jobless.

We don't claim that the jobless figure and the Immigrant figure necessarily have any special cause and effect relationship with one another, but they are nonetheless facts which will interact.

Both represent proof of the incompetence and treason, not just of this rotten Government, but of all rotten Conservative and Labour Governments since the last war.

The most shocking aspect of this is the appalling unemployment amongst our young people.

More than one third of a million youngsters who have left school have never had a job, and according to the Manpower Services Commission this figure will rise to over 400,000 by early 1981.

INDUSTRIAL WASTELANDS

We have already seen the case of 200 young people applying for just four jobs as shop assistants in Sunderland. Now we have individual cities and even whole regions of Britain turning into industrial wastelands with absolutely crippling unemployment.

In Liverpool there are 62,220 people out of work. In Merseyside over 12% of the work force are unemployed. In steel towns such as Shotton the rate rises to over 15%, while in Northern Ireland they run as high as 22% in Newry and 23% in Strabane.

The Government is scared by these figures, not because of the despair into which our youngsters are being plunged, but because they fear social unrest, particularly amongst the Immigrant population.

proportionately high number of young Immigrants out of work.

One MP was even recently reported as saying that unemployment among Blacks was "four times" as high as among Whites. Even the Government's own statistics show this to be a lie.

While there are over 1,800,000 White people out of work, there are only 52,364 Blacks unemployed, only 3% of the total, and much less than the proportion of Blacks among the population generally.

In Yorkshire and Humberside, which includes Bradford, only 3.4% of the unemployed are Black. In

relations of high unemployment among young black people," this is "in addition to a number of other studies currently being undertaken by the Government on unemployment among ethnic minorities."

'SUS' LAW CHANGE?

Mr. Timothy Raison, MP, Minister of State for the Home Office, when announcing these studies, also announced that they would include a study on the repeal of the "Sus" law, which muggers find so offensive. He also announced (another) special campaign to recruit Black

youths into the Police.

With so many organisations dedicated to helping Immigrant groups, and riots such as at Bristol, it is not surprising that they get special attention — after all, "It's the squeaky hinge that gets the oil."

There are some clear lessons for White youngsters from all these developments. The first is that they must become ANGRY. The second is that they must become ORGANISED.

If you want to fight for your future against those who have betrayed you, then JOIN THE NATIONAL FRONT!

THE GOVERNMENT IS TO ENQUIRE INTO THE "SPECIAL PROBLEMS" OF UNEMPLOYED BLACK YOUTH. ISN'T THAT HEART WARMING ?

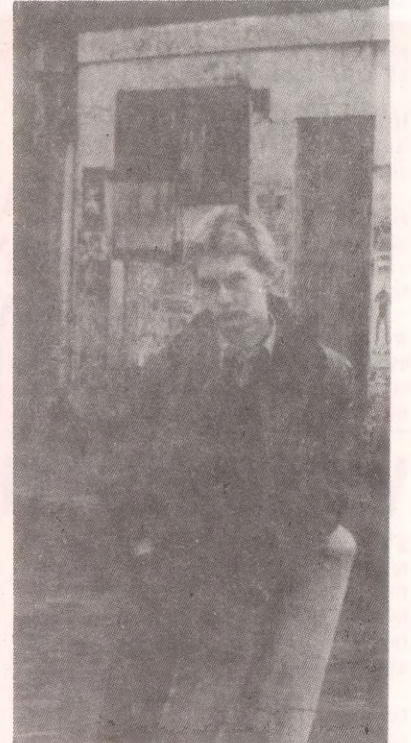

Lane, Chairman of the Commission for Racial Equality, who earlier this year warned that unless jobs were given to Blacks, the end result would be more race riots like the one seen in Bristol.

BUILDING UP MYTHS

The Government has been aided in this policy by the mass media which has been carefully building up the myth that there are a dispro-

the North West only 2.4% are Black. Even in the East Midlands, which includes Leicester, only 6.4% are Black. In the area which includes Bristol (where Black unemployment is meant to have sparked off the Race Riot) only 0.9% of all unemployed are Black.

Despite these figures the Government, egged on by the media, have now announced that a special study is to be conducted by the Home Office into "the effect on race

TEXTILE INDUSTRY IS IN RUINS

THE East Lancashire textile industry faces complete collapse due to the massive importation of cheap textiles from abroad.

This year saw the closure of the giant Courtaulds Redcar works in Preston which produced man-made fibres, at a loss of thousands of jobs.

That closure followed the equally disastrous closure last year of Orr's Spinning Mill at nearby Bamber Bridge. There have been many such closures in Preston in recent years.

In neighbouring Blackburn one of the largest textile manufacturers still operating, Waterfall Mill, is now on short time, as is Hacton Lee Mill

— for the first time in 20 years.

John Baines have now finished the night shift, while Martin's Silk Velvet are in the process of closing down.

Roe Lee Mills, which produces bedspreads and upholstery, were recently re-equipped with modern machinery. Now most of its work-force are on a one-day week.

Imperial Spinning Mill, one of the largest and best-equipped plants in Lancashire, closed down four months ago.

Amazingly, at a time of severe hardship in the textile industry the local Area Health Authority has been buying foreign imported sheets. The Blackburn Health District administrator said:—

"We are obliged to accept the lowest tender."

Local sheet manufacturers, Highams of Accrington, have now had to put their 650 workers on a three-day week.

Platt Saco Lowell of Accrington, once one of the biggest manufacturers of textile machinery, is now suffering from the catastrophic decline of the textile industry in the North-West.

Ironically, during the 1950's and 1960's some of its largest and most profitable contracts were for supplying textile machinery to Communist Eastern Europe and to Asia — machinery which is now being used to undercut British textiles on the British home market.

TORIES HOIST IN THEIR OWN PETARD

EVEN though it is an offence under the Public Order Act to "use physical force to achieve political objectives," the leadership of the Socialist Workers' Party have never been prosecuted for instigating numerous violent mob attacks on National Front marches and meetings. The reason for this is that the Establishment is only too happy to allow the Red Mob to do the dirty work of trying to 'contain' the NF.

We have always warned that other parties — indeed, the Establishment itself — would come to rue this 'blind eye' policy towards SWP riot organisers. The visit by Margaret Thatcher to South Wales last July proved us right.

Thousands of Police had to be deployed to protect the

Prime Minister and delegates to a Tory rally from assault from a frenzied SWP mob. Flushed with their success, the SWP has announced it will be staging an even bigger and more violent "massed picket" outside the Tory Party conference at Brighton.

The 'blind eye' which the Tories have turned to the SWP leadership when the NF has been the target of violence is now going to get blacked — by SWP ruffians. Tee-hee!

Brighton NF Branch should run a campaign demanding that the Tory Conference be banned on account of the public disorder it will "provoke" and the high cost to rate-payers of providing Police protection!

NF News seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful — only "racial hatred".

VIOLENT CRIME: CAN THE POLICE COPE?

OUR BRITISH way of life is in the process of disintegrating. It is divided racially and it is in an advanced state of economic decay. It is also disintegrating in a welter of crime and violence that increases every year. We no longer live in a society founded upon law and order.

Instead we live in a society in which the Police can only attempt to "contain" the escalating explosion of violent crime.

On February 28th Scotland Yard released the 1979 crime statistics for the Metropolitan Police area. Under the beguiling heading of "Crime Figures Fall by 2 per cent" (i.e. including non-violent theft, which is half the crime total), the report actually showed yet another alarming increase in murders, assaults and other violence.

Assaults and woundings were up by 12 per cent on the previous year to a staggering total of 16,425. Murders increased from 118 to 179, attempted murders from 176 to 227. The report also showed the terrifying rise in violent crime over the last ten years.

For example, in assaults, from 7,911 in 1970 up every year to 16,425 in 1979. Robberies and other violent thefts were up from 3,825 in 1970 to 11,636 in 1979.

Crimes described as "Robberies of personal property following a sudden attack in the open" (i.e. muggings) have shot up from 979 in 1970 to 3,468 in 1979.

On the 14th March this year, the Home Office published the crime figures for the whole of England and Wales in the 1970's.

Again a frightening explosion of violent crime was recorded. Crimes of violence had soared by an average of 9 per cent every year to reach a shocking total of 95,000 in 1979.

These are the appalling statistics which mean that our people today, especially women and old folk, increasingly walk our streets in fear of assault, rape and robbery, often

murder.

The statistics certainly signify a social disintegration affecting all sections of the population. They are the product of the general collapse of authority and discipline, liberal Parliamentary legislation,

BOBBIES WITH DUSTBIN LIDS

NOTTING HILL 'CARNIVAL' 1977

pathetically soft punishments meted out by the courts, and the proliferation of do-gooders, cranks and subversives in all areas affecting crime and punishment.

But they are also statistics in the race war.

Violent crimes, especially violent robberies are committed by Blacks out of all proportion to their numbers in the population — a fact which Police statistics have never been

able to conceal.

That is why multi-racialists in all Parliamentary parties have successfully combined to abolish the 'Sus' law (suspected person loitering with intent to commit a crime) — under which a disproportionate number of Blacks have been arrested in inner city areas.

During the debate on the 'Sus' law in Parliament, Home Secretary Willie Whitelaw admitted that in the last three months of 1979, 20 Blacks were arrested under this law in Wandsworth, Tooting and Battersea, as against 8 Whites, while in

against elderly people and usually elderly White women, are increasing every year.

In London, statistical variations in individual areas of Immigrant population occur only as a result of gangs of Blacks moving from one area to another to avoid concentrated Special Patrol Group dragnets.

In Brixton recently, for example, a gang of Reds and Blacks led by Marxist Lambeth Council leader Ted Knight besieged the police station to protest at the decision of local police commander Len Adams to once again call in the SPG to combat muggings in the area.

At the time of the recent National Front anti-mugging march in Southwark, S. London, Community Relations officers at Scotland Yard announced that muggings had "gone down" in the area.

Now the SPG have been called in again, as they have in Hackney, N. London, where dusky Council leader Martin Ottolangui immediately demanded the dismissal of Commander Mitchell.

The Black crime wave is now so out of control that the Police can no longer cope with it. The Bristol race riot was a classic example, when the Police were compelled to retreat and leave the St. Pauls area to the mercy of a rioting mob for several hours.

Even units like the SPG can only scratch the surface of the mounting wave of rioting and violent crime. A typical example of the Police failure to cope with the situation was an incident in North London on the 26th May this year.

A robbery from the till of a takeaway food shop in Seven Sisters Road by a gang of ten Blacks could not be prevented because the Police arrived half an hour after a 999 call.

Why so late? Because, as the report of the insurance company in-

volved clearly states, the Police were too busy trying to contain the violence of a rioting mob of 400 Blacks at the nearby Finsbury Park funfair.

Police inability to cope is further aggravated by the refusal of Blacks to volunteer for identity parades at police stations when Black suspects are involved.

The Police now have to hold identity parades at Underground stations and feed suspects down the escalator for identification by witnesses! But Black suspects are now refusing to take part in anything but parades at police stations — and are being discharged by the courts!!

LOCAL BOBBY 1985?

VICTIMISATION: THE STEPHEN BRADY CASE

STEPHEN BRADY is an active Nationalist, though not a National Front member. Indeed, the NF has by no means always looked with favour on his political activities and associations.

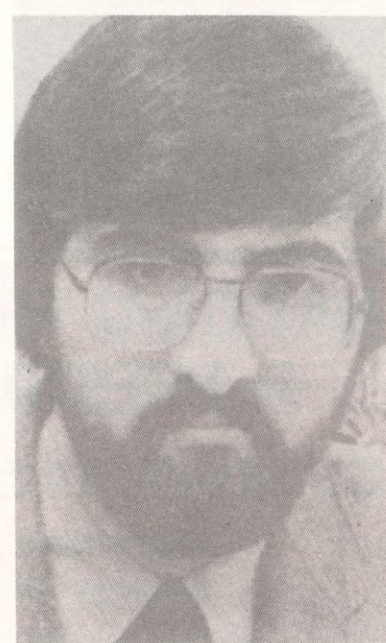

Nonetheless, the way in which he has been victimised by Jewish newspaper smearing, 'Community Relations' agitators, a local education authority and last, but by no means least, by two members of the League of St. George and of the "Constitutional Movement" should be of concern to all Nationalists.

After getting his degree in Zoology at Imperial College, London, Mr. Brady decided to embark on a teaching career.

OUT OF CHARACTER

While he was waiting to commence a teacher training course at Chelsea College he impulsively agreed to assist a friend collect a debt. He became embroiled in a fracas and in January 1978 was convicted and jailed on an Actual Bodily Harm charge.

Chelsea College considered the incident to be out of character, and presumably did not consider the conviction to be an impediment to a teaching career, and so allowed him to join its teacher training course after he had completed his

Stephen Brady

sentence.

In addition to this, once he had obtained his teaching certificate in July 1979 his Probation Officer provided him with a reference which stated:

"He is a personable and pleasant young man . . . should be appointed to a teaching position I

am satisfied that he would prove a valuable asset . . . his single lapse would have no effect whatsoever on his teaching standards . . ."

Mr. Brady applied for a number of teaching posts. He eventually obtained a post as a supply teacher in general science at Elthorne High School, Hanwell, Ealing, West London.

The application form which he was required to complete did not ask if he had any convictions, nor was the subject raised at interviews.

He commenced teaching in September 1979. At the end of his first term his Headmaster, Mr. N. Wheeler-Robinson sent a "first class" report about his work to the Ealing Borough local Education Authority.

Throughout his time at the school there had been no complaints from pupils, parents or staff that he had introduced his political views into the school.

What promised to be a promising career was wrecked by two of Mr. Brady's associates in the "Right Wing" League of St. George organisation who earn pocket-money by selling true and false stories about Nationalists to Sunday newspapers.

In Mr. Brady's case they sold the story about a "racist with a conviction teaching in a multi-racial school" to Harry Warschauer of the Sunday People. All manner of private conversation tit-bits were

provided for good measure.

Warschauer ran two stories in March this year which demanded that Mr. Brady be dismissed not only because he was a racist, but also because he had a conviction.

These reports stirred up a lynch-mob of local Labour Councillors, the Ealing Council for Community Relations and sundry local newspapers.

In due course he was sacked "for not declaring his conviction when he applied for the post," even though he had not been asked to declare any such information.

POLITICAL LYNCH-MOB

Quite obviously he was sacked because of his political views and the pressure of the lynch-mob.

If any one of the thousands of Red teachers in London who (like the late Blair Peach) had convictions for violence and who blatantly introduce politics into their lessons, were to be sacked for their conduct there would be hell to pay from the National Union of Teachers and media "free speech" humbugs.

But nobody championed Mr. Brady.

We expect the likes of Warschauer to persecute Nationalists, but so-called 'Nationalists' who instigate such persecution in return for cash are vile beyond belief.

NF PORNO??

THE News of the World excelled itself in its capacity to invent lies about the National Front on 3rd August when it ran a story claiming that the NF was merchandising German pornography (it had to be German!) from its building, Excalibur House, in London.

The reason why the gutter rag produced this lie is as follows:

Last year Hackney Council attempted to get the NF evicted from the building, a warehouse, on the basis that the building was not being used in accordance with Planning Law.

A Department of Environment inquiry upheld only one of the three Hackney Council 'Enforcement Notices'. Since the inquiry the building has been used for warehouse purposes, including the storage of a reputable second-hand bookseller's stock. (The bookseller specialises in theological works!)

Furious that the NF had found a means of using the building within Planning Law, N-o-t-W reporter Michael Parker conned his way unrecognised into the building, caught a quick glimpse of racks of books through a window in a locked doorway, and then concocted his story about "German sex magazines".

The only 'porno' publication that ever finds its way into Excalibur House is the News of the World — and then only if the loo paper has run out!

SUNDERLAND AND CONSETT— TWO TOWNS THAT ARE DYING . .

UNEMPLOYMENT is becoming a way of life in Sunderland. It is currently at least twice the national average. In the Southwick area it is officially three times the average and in some parts of the town council officials believe it to be four or five times the average.

There is no family that it does not affect directly and some entire families are registered as unemployed. It is a town without hope. Even miners who are still employed speak gloomily of "When the pit closes . . ."

As for unskilled labour there are now 200 men available for every vacancy.

Washington New Town, a few miles away, has absorbed some of Sunderland's unemployed in its new factories, but Washington is now beginning to experience its own redundancies and, in any case, Sunderland's high unemployment figure exists after Washington has helped to relieve it.

Listen to Sunderland's Leftist propagandists and you would think that the Thatcher government was responsible for it all, but in fact the decline of Sunderland industry started in the 1960s, through the 1970s and has only reached its peak today.

Thus Labour's responsibility is every bit as great as that of the Tories, if not more so.

CLOSURES

Pit closures, shipyard redundancies have been going on steadily throughout the last twenty years, building up an ever growing pool of unemployed. Now the position has greatly worsened by the rapid decline of many of the secondary

industries, some of them imported to replace the old and which have closed down or declined after only a few years.

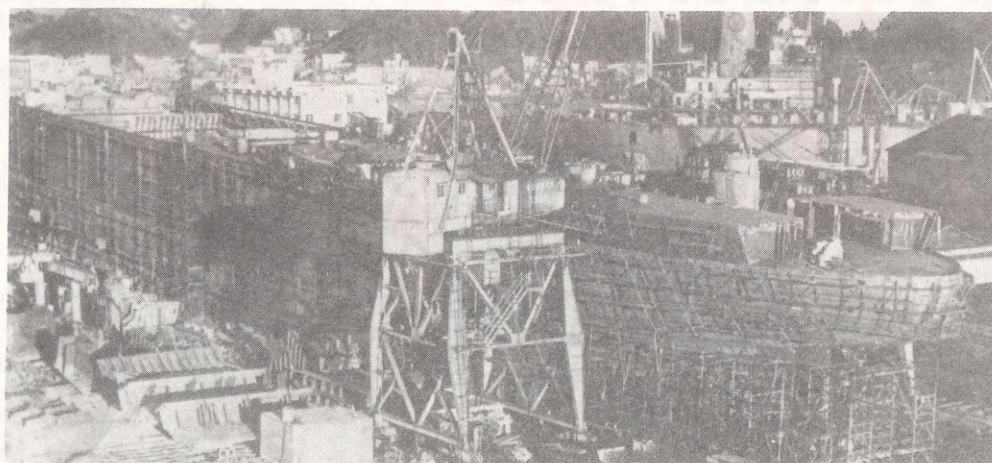

Two large electrical plants in Southwick closed in 1977 with a loss of 6,500 jobs and nearly 3,000 jobs have been lost in clothing and textile firms in the town.

The famous Doxford Engine Works, now part of the giant nationalised British Shipbuilders Consortium, is likely to stop making engines in the Autumn, sacking most of its workers in a scheme of "rationalisation".

And what happens in a town whose basic industries are dying and whose secondary factories are closing as well . . . where resultant unemployment causes poverty and deprivation?

As in Sunderland, shops close down, furniture firms, clothing firms, bakeries, paint firms and so forth. Finally building work almost ceases.

What does this mean in human terms? Sunderland school-leavers are unlikely to find work in the foreseeable future—almost certainly none in Sunderland and with precious little chance in an area for miles around.

Once the home of heavy industry like shipbuilding and steel-making, Sunderland and the surrounding area has become an industrial knacker's yard.

YOUTH UNEMPLOYMENT

Youth unemployment is not only high, but there is no real hope for young people in the labour market. A whole "no hope" generation is growing up.

Kids with good school achievements, with 'O' and 'A' levels, are kicking their heels along with the less bright on street corners or are taking dead end jobs.

It is the young in Sunderland who take the brunt of unemployment, between half and three quarters of the registered unemployed are under 30.

For those recently made redundant, the compensation and tax refund soon runs out. £18.50 a week dole plus £11.50 for a dependent wife and £1.70 for each child goes nowhere in the face of mounting inflation, with food, fuel, rent,

rates and transport costs rising daily.

Real poverty is capturing more and more Sunderland families. While politicians talk of things "getting worse before they can get better," they cannot show any reason why they should get better after they have grown even worse.

Sunderland points the way to what many more of our towns and cities will become as Britain's industrial decline continues, a decline which could be halted dramatically by the application of Nationalist economic policies — policies which only the National Front will implement.

CONSETT

Consett, the steel town some 20 miles from Sunderland, is destined to become an industrial graveyard in the very near future.

Not for Consett the "partial" closure of its steel industry as at Corby or Shotton, where at least several thousand jobs have been left at the "finishing" end of the industry, but the total closure of the British Steel Corporation works on which the town is very largely dependent.

4,000 jobs will go with some other 4,000 going in dependent industries, resulting in an expected 35 to 40 per cent unemployed.

Mr. Terence Hodgson, the chief executive of Derwent District Council, has summed up the plight of the workers of both Consett and Sunderland:

"With unemployment in the North East already more than 1 in 10, Consett is an island of unemployment in a sea of unemployment. If the plant closes nobody will run from here. There is nowhere to run to."

NF's NEW MAGAZINE HORRIFIES PRESS HACKS

SQUEAKS of horror erupted from the rat-pack of Fleet Street journalists as soon as they saw the first issue of the National Front's new magazine, *New Nation*.

No Nationalist magazine has ever provoked quite the shocked reaction from press hacks as *New Nation*, the 32 page quarterly devoted to political, ideological and cultural issues of interest to serious-minded Nationalists.

Notorious leftist and ethnomasochist scribbler James Cameron greeted the magazine in an article in the *Guardian* newspaper as a "truly horrid little publication . . . the first authoritative printed gospel of all that we hold most un-dear, to wit the National Front."

It was, said Cameron, grasping for more adjectives, a "slimy

Walter Terry

James Cameron

periodical, which I warmly recommend to all liberals, democrats, wets and mealy-mouthed mini-Marxists, in the sure and certain knowledge that it will confirm and re-inforce their natural distaste for the National Front and all its works, of which *New Nation* is, at least, so far, the nastiest, and that is saying something."

No finer tribute could be imagined, coming from one of the

foremost race-traitors of his generation.

"Vile . . . 'evil' . . . 'despicable comic' . . . 'emetic stuff' . . . Cameron searched his dictionary frantically in order to lavish upon *New Nation* as many abusive epithets as he could muster.

To be fair, his article was not without humour. We are particularly enjoyed "If you are an African, which God forbid, it will cost you £6.80, and probably a kick up the bottom for your impertinence."

It was the attempt at patronising humour in Cameron's article that goaded Walter Terry in the *Sun* three days later to react violently.

Terry, a pro-Zionist creep of the first order and confidante of Harold Wilson's Kosher Mafia, clearly thought that dismissive humour was

not the way to deal with something so appalling as *New Nation*.

Terry counteracted with an unbelievably moronic article headlined "These Evil Men Are No Joke".

His 'Lunchtime O'Booze' ravings certainly surpassed Cameron for adjectival excess, managing to include such gems as 'loud-mouthed yobbos', 'dedicated Nazis', 'filth-laden minds', 'poisonous tongues', 'evil hearts', 'bunch of monsters', 'Third Reich race theories', 'virulent anti-Semitism', 'nasty', 'vulgar' and 'stomach-turning'. Phew!

And that's not all. "What kind of beasts are these at work?" frothed Terry. "Their vomit is the pornography of politics."

Terry concluded his article with two paragraphs that could easily be mistaken for the work of *Private*

Eye's caricature of a Fleet Street hack, Lunchtime O'Booze, or Jack Moron in the *Daily Telegraph's* Peter Simple column.

"It is numbing to discover that the horror of Adolf Hitler lives on."

"And that there is even one little runt in the entire world ready to apologise for Heinrich Himmler."

(Needless to say, there was no reference whatever in the entire magazine to the late Herr Himmler.)

These kind of ravings really are the finest compliment *New Nation* could hope to have.

Any race-mixing journalist who can manage to get the words 'vomit' and 'pornography' in a seven-word sentence really must be upset — and it certainly seems that *New Nation* has upset the hacks of Grub Street more than anything else in years!

COURTS REJECT REDS' FAKE CHARGES AGAINST NF ACTIVIST

ON 9th July National Front Activist Michael Harkins of Camden Branch finally triumphed over a conspiracy by Socialist Workers' Party and Anti Nazi League members and supporters to frame him on trumped-up charges of assault.

Michael's ordeal began early in November, 1978, when a gang of SWP/ANAL members, three with cameras, rushed into the butcher's shop in Kentish Town Road where he was employed, shouting threats and slogans.

Michael was photographed with a meat cleaver in his hand and wearing the blood-spattered overalls of his trade.

The following Saturday 80 of the Reds turned up outside his shop waving placards, harassing customers and distributing a leaflet which included a photograph taken of him while at work. The photo was headed: "The Butcher of Camden!"

The leaflet accused him of being involved in a number of incidents during which SWP/ANAL members were allegedly attacked. Contrary to expectations, the demonstration increased trade at the shop.

Then on 5th December, 1978, two CID officers called at his shop

and asked him to come to the Police station for "questioning".

Michael went voluntarily, and, on arrival, was immediately charged — no questions were asked — with causing Actual Bodily Harm and possessing an offensive weapon. The two charges related to separate incidents.

Michael pleaded Not Guilty and elected for trial at Newington Causeway Crown Court.

The first trial which started in early 1980 had to be abandoned because Prosecuting Counsel caught flu.

At the second trial, which started on 4th June, the Offensive Weapon charge was dropped by the Prosecution due to lack of evidence. However, an Assault charge was substituted.

At the end of the trial the Jury returned a 10-2 Not Guilty verdict on the Actual Bodily Harm charge, but failed to agree on the Assault charge after pondering the matter all day.

Thus a further trial was held on 9th July. At this the Jury returned a unanimous verdict of Not Guilty on the Assault charge.

After the trial Michael visited NF Head Office to renew his party membership which he had allowed to lapse during the period of the trials. He told an NF News reporter: "The *Camden Journal*, which is run by Reds, tried to claim some sort of a victory by saying I am a former NF activist. Well they're wrong. I shall now be working for the NF harder than ever!

"It's great to see the NF still on the scene," he said. "From what I can see of it, the Anti Nazi League is down the pan!"

Guess who got which fine?

HERE are two recent cases involving motoring offences which came up before the Courts in the Leeds area recently.

In one case the driver was fined £250 and disqualified from driving for three years; in the other the driver was fined £1,300 plus £35 costs and disqualified for 5½ years.

Case 1: Businessman Mr. Stuart Robertson reversed into a Police car, then drove away at speed. When approached he was found to be drunk and driving whilst disqualified.

He was convicted of driving with excess alcohol, reckless driving, driving whilst disqualified, driving while uninsured and failing to stop after an accident.

Case 2: Motor mechanic Gurmit Singh Diggall took 15 year old Jacqueline Doyle out for a spin in his car. He swerved in front of another car and there was a collision. Jacqueline was rendered unconscious. Instead of taking her directly to a nearby hospital, for fear the authorities would realise that there had been an accident, the unconscious girl was transferred to the car of a West Indian friend of Diggall's.

Diggall and his friend then handed her over to a White man to take her home for fear of what her mother might say. This man carried the girl over his shoulder, and told her mother that she was "drunk".

Her parents realised at once she was ill and rushed her to hospital — 2½ hours after the accident — where she died from internal bleeding.

Mr. Robertson got the £1,300 fine plus the 5½ years ban. Mr. Diggall got the £250 fine and the 3 year ban.

BOLTON: NF ATTACKS PLAN TO GIVE £71,000 TO IMMIGRANT GROUPS

BOLTON COUNCIL is planning to give £71,000 of ratepayers' money to assist Immigrant groups to buy or develop their 'Community Centres' in the town.

"These projects for Bolton people of West Indian and Asian origin will go a long way towards helping them to feel they belong," declared Cllr. Bob Howarth, leader of the Labour controlled Council.

The proposals have been bitterly attacked by Bolton's National Front Organiser Mr. John Hamilton. His denunciations of it and his promise that a protest demonstration will be held outside the Town Hall received big local press coverage.

Subsequently the local press has been flooded with letters from local White people attacking the Council's plans and backing the National Front protest.

The news of the Council's plan to provide special facilities for Immigrants came only a day before the Regional Health Authority announced that more than £9.5 million worth of building schemes for Bolton's General Hospital had been dropped.

Health Authority official Mr. Roy Holman said that several schemes had been delayed and some omitted completely. A 56 bed unit for the elderly and mentally infirm would cost 2½ million if built now. Every year's delay would add a further £500,000 to its cost.

A recent report from MIND, the National Association for Mental Health, has revealed that "Bolton is at the bottom of the league in providing facilities for mentally-handicapped adults."

Cllr. Howarth has defended his Council's plans to splash out money

on West Indian and Asian social and entertainment centres as being in line with Government policy to provide special facilities for Immigrants in inner city areas.

The grant to Bolton's Asian community is designed to assist with the development of the existing Vishwa Hindu Parishad Community Centre into a two-storey building.

The whole project will cost a total of £73,000. The Council proposes to give £45,000 towards this. The Asians themselves will only be expected to provide £28,000.

The grant to the West Indians is designed to help them obtain a lease on the former Parks Flats near the town centre for use "as a base for all the Bolton West Indian Association's activities," including the provision of a youth and community centre.

Press reports of this project do not indicate that the West Indians are expected to contribute a penny towards the provision of these special facilities.

Mr. Ray Halliwell, Bolton's Community Relations Officer, has attacked the National Front's campaign.

He described the NF's call to put vitally-needed hospital building, the care of the mentally handicapped, and the need to provide better educational facilities before the provision of entertainment centres for Immigrants as "reactionary racism" and part of the NF's "corrupt and evil concept."

Mr. Hamilton is not dismayed. He told NF News:

"That man is sick. We are sure Bolton people support our campaign and will support our forthcoming protest demonstration."

NATIONALISM TODAY

THE WORD YOU'RE LOOKING FOR, ENOCH, IS REPATRIATION

MORE than 30 NF activists from Reigate & Redhill Branch and other groups in East Surrey demonstrated in support of Enoch Powell in July when the MP spoke at the Dorking Halls, Dorking.

The NF activists, carrying Union Jack flags and "Enoch is Right" banners, were not of course supporting Mr. Powell's recent endorsement of Thatcherite economic policies. They were supporting Mr. Powell as one of the few Westminster politicians who goes at least part of the way towards a solution to Britain's race crisis.

Mr. Powell told his 200-strong audience, including some of the National Front activists, that one-third of the population of Britain's major cities could be Coloured in the foreseeable future.

He accused politicians of the major parties of "silence and blindness" over race and of deliberately suppressing the facts from the public.

The Bristol race riot, said Mr. Powell, was an example of the "urban terrorism" that will hit Britain if the Immigrant population increases.

He said that the reaction in Parliament to the Bristol riot was out of all proportion to the incident itself because of the "habitual suppression by the national Press and other media" of similar riots in London and Birmingham.

The decision not to include a question on ethnic origin in the 1981 Census meant that the nation had been deliberately prevented from "observing in terms of published official figures the full and true extent of the change taking place in the population of our great cities and industrial areas."

Mr. Powell said that Black births in England and Wales have now risen to 1 in 12, and in London to more than one in five.

He said that the public were now convinced of "future catastrophe", and that "the former mood of anger and alarm had been replaced by one of resignation and weary impotence," like people living under an active volcano waiting for the "fatal eruption" to come.

"Well might it be said to those who already view the present with anxiety or alarm - 'You have seen nothing yet'," said Mr. Powell, predicting future race war.

But Enoch Powell was still equivocal on the subject of the only solu-

The Rt. Hon. J. Enoch Powell, MP

tion to the race crisis in Britain. He admitted in his speech that true immigration had ceased to be made the main problem, and that the real danger was now the exploding birth rate of those Immigrants already here.

But, as ever, he would not commit himself to the only logical solution to the problem as he correctly analyses it, compulsory repatriation.

Vague suggestions in his speech of schemes of "voluntary repatriation" were met with shouts from his audience that "all Blacks" and "all non-British" should be deported.

Mr. Powell, of course, must know that the National Front solution is the only answer, but his refusal to actually spell it out causes him increasingly embarrassing situations when interviewed.

Commenting recently on media reporting of race in the BBC programme *The Editors*, Mr. Powell admitted that the rapidly increasing population of Immigrants already in Britain would bring disaster unless some action was taken.

When asked whether he meant compulsory repatriation, he would only say that "large movements of population" would be necessary and adamantly refused to clarify this any further.

Enoch Powell has spoken up bravely in the past. We support him as far as he goes - but he doesn't go far enough. The word you're looking for, Enoch, is REPATRIATION - so come on out and say it!

NF KEEPS UNION JACKS FLYING!

THROUGHOUT the world traitors have hauled down the Union Jack - but in Britain the flag is kept flying in defiance of the Red Mob by the young patriots of the National Front, seen here marching in Warrington.

Brighton Branch comes back to life again!

MORE than 30 current and former members of the NF living in the Brighton and Hove area attended a meeting on Friday 18th July in order to reform the local Branch.

During the previous two years any members - especially youngsters - who showed the slightest spirit and activism were systematically hounded out of the Branch by its former Organiser, Mr. Charles Parker.

Eventually the Branch dwindled to a hard core of nine people - five elderly folk plus three of Mr. Parker's relatives - meeting in Mr. Parker's front room.

When Mr. Parker left the NF to become Deputy-Leader of a splinter group NF members and supporters throughout the area re-activated themselves and reformed the Branch.

Mr. Harold Jones was elected Organiser, Mr. Ted Budden was elected Chairman, Mrs. Joan Polsue was elected Secretary, Mr. Des Fenwick was elected Treasurer and Mr. Martin Wingfield was elected Elections Officer.

So keen were the members to get back to work that Mr. Jones was nominated to contest a local Council ward by-election before the Branch had been officially reformed.

The purpose of fighting the election was to hold a public meeting - the first in the town for years. (Mr. Parker had forbidden Mr. Jones to hold a meeting on the last occasion he stood for the Council.)

Guest speaker at the election meeting was NF National Activities Organiser Martin Webster, who defeated attempts by Red and Zionist hecklers to shout him down.

A local Councillor has demanded that Mr. Webster be prosecuted under the Race Relations Act.

FLUORIDE PETITION

NF Wolverhampton Branch Organiser Mr. Eric Shaw has personally collected more than 2,000 signatures on a petition opposing a proposal to add fluoride to the city's water supplies. The petition was presented to the Mayor of Wolverhampton on 21st July.

Mr. Shaw told the local press: "I was collecting signatures for about four hours in total. This shows how strong the feeling is against fluoride."

MANCHESTER MEMBERS DEFY IRON BAR RED THUGS

DURING the past few months supporters of Manchester's various Communist organisations have become more and more frustrated as they saw Manchester NF Branch newspaper sales teams sell scores of copies of *NF News* every Saturday at their pitch in Piccadilly Gardens.

NF News sales teams have been subjected to continual harassment by the Reds who turn out to sell their papers on the same spot. But the NF members' reply has always been: "You yell - we sell!"

Humiliated by the NF members' success in attracting customers from among passing shoppers, supporters of the Socialist Workers' Party decided to try and stop the *NF News* sales once and for all by means of a vicious attack.

On Saturday 19th July six *NF News* sellers were attacked as they were making their way to Piccadilly by a large gang of thugs wearing crash helmets and wielding iron bars.

Three of the ambushed NF men were taken to hospital, and one required six stitches in his head.

The NF's local intelligence officer has been able to identify three of the attackers from Branch photo files, and their names

and addresses have been forwarded to the Police. If the Police do not take action, demonstrations will be held outside the attackers' homes.

When news of the attack reached NF Head Office Martin Webster, NF National Activities Organiser and Editor of *NF News* sent out an emergency bulletin to NW of England units asking them to support the sales drive at Piccadilly on the Saturday after the attack - 26th July.

Mr. Webster went up to Manchester to join the sales team himself to show solidarity with Manchester's brave sales team and to demonstrate that the NF refuses to be intimidated by Red gangsters.

Despite having only two days' notice of the event, more than 50 NF members from outside Manchester mobilised to support the sales team which, as usual, outsold the Reds hand over fist.

LANCS AND YORKS YOUTH RALLY TO THE Y.N.F.

YOUNG National Front Publicity Officer Joe Pearce won an enthusiastic reception from young and adult National Front members alike when he spoke at two rallies in the North of England.

The two meetings were held at Stockport, Gtr. Manchester (for NW of England members) on Tuesday 29th July, and in Leeds (for Yorkshire members) on Wednesday 30th July.

The meetings were called in order to explain how local units of the YNF must organise themselves - with the emphasis on a greater degree of local self-reliance - and what kind of campaigns should be pursued.

Joe stressed that YNF units should

not consider themselves to be a separate entity from their local NF Branch but an integral part of their Branch and the backbone of its activism, especially in the areas of newspaper selling, leafletting and demonstrations.

So far as local YNF campaigns were concerned, Joe advised that school pupil YNF members should keep an intelligence on Red teachers who pushed Marxism and multi-racialism in lessons.

Demonstrations should be held outside schools where such teachers operate.

Supporting speaker at the Leeds meeting was Mr. Eddy Morrison, Yorkshire Regional Organiser, who has had great success in recruiting young people to the NF.

DERRICK DAY GIVEN £1,400 BY MEDIA LIE-MONGERS

DERRICK DAY, Chairman of Hackney NF Branch and a Security Officer at Excalibur House, has been awarded £1,400 in an out-of-court settlement of a libel action he brought against London Weekend Television Ltd.

The libel was made in one of those traditional pre-election anti-NF smear programmes - on this occasion LWT's notorious *London Programme* screened just before the GLC elections in 1977.

The programme, amongst numerous other lies, accused Mr. Day, his wife and son of a vicious attack on a woman - a Mrs. Harrison - who claimed in an interview that Mr. Day had beaten her with a pick-axe handle.

The allegation was a total invention. The Police had never even investigated the incident, let alone charged anybody.

Writs for libel were issued by Mr. Day against the programme presenter, Angela Lambert, producer Michael Braham, researcher Gerry Gable (Zionist-Communist founder of the *Searchlight* publishing company and convicted document

stealer), Mrs. Harrison and London Weekend Television.

The media lie-mongers understandably preferred to settle out of court, and agreed to pay Mr. Day £1,400 in damages.

NF members will be delighted to know that the money handed over by our media enemies will go to the fund set up by Derrick Day to buy land for YNF outdoor activities.

Footnote:- Derrick Day has also started legal action against Paul Kavanagh. Mr. Day is suing for breach of contract, under an agreement whereby, for work done on the refurbishing of Excalibur House, Mr. Day should have been reimbursed in company shares allocated to himself and to Trustees of the Young National Front.
